

An invitation for conversation and collective action!

Now is the Time!

Welcome fellow citizens: individuals, families, friends, partners and allies! Join this call for action, learning and hope!

Thurs, March 23, 2023
6:30 - 8:00 pm

- Have you experienced barriers that prevent you or someone you care about from living life as a full citizen?
- Have you or someone you care about who lives with disabilities, been waiting a long time for SSAH, Passport, or any other type of individualized funding in this province?
- Do you need adequate funding to pay support workers to help live a basic life like other citizens in Ontario?
- Do you wish you had a facilitator - someone that stands with "you", helps with your goals, supports you with building relationships & contributing back, and who will be there over the years through life's ups and downs?
- IF YOU ANSWERED YES TO ANY OF THESE QUESTIONS -- THIS EVENT IS FOR YOU!

What to expect: A starting point for all of us! Highlights from Now is the Time paper! A common message! Actions that are doable! Partners & allies who are aligned and want fellow citizens – people and families living with disabilities - to do more than 'just' survive. . .to have the right support for a self-directed tailor-made everyday life!
